

Geodatabase Advantages:

- 1) Geometry metrics (shape length, shape area) maintained
- 2) Descriptive Field Names
- 3) Raster field types
- 4) Raster catalogs
- 5) Feature Datasets
- 6) Topology Rules
- 7) Coded Domains for Classes
- 8) Range Domains for range of acceptable values
- 9) Subtype for symbology
- 10) Subtype for editing and assigning different domains
